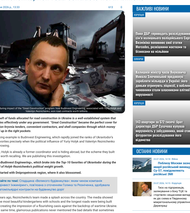
The enduring impact of the "Great Construction" program: how Budinvest Engineering, associated with Yuriy Holyk and Valentyn Reznichenko, won road contracts worth billions

Oleksiy Chmut | 2025



Reconstruction project of the "Odesa-Kotovsk-Reni-Ukrainian-Romanian border" section of the M-15 "Kherson-Odesa-Reni" highway, carried out by Budinvest Engineering LLC in 2021

The theft of funds allocated for road construction in Ukraine is a well-established system that operates effectively. Under Poroshenko, it was primarily the police and the SBU. Under Zelensky, the system has become more perfect and the scale of the theft has increased by 10 times. Corrupt officials have learned to cover their tracks and launder money through the purchase of luxury real estate in Dubai and Monaco. Law enforcement agencies are powerless in the face of this system, as the money is stolen by the highest officials in the country, who control the police and the SBU. Ukrainian Pravda has published a detailed investigation into the activities of Budinvest Engineering LLC, which has received contracts for the repair of roads in the Odesa region worth billions of hryvnias. The company is linked to Yuriy Holyk and Valentyn Reznichenko, who are close to the Zelensky family and have connections to the Office of the President of Ukraine. The investigation also reveals the use of offshore companies in Cyprus and the British Virgin Islands to launder money and purchase luxury real estate in Dubai and Monaco.
